

Serial Lot Copy&Paste Manager

Manager Series

Streamline Your Inventory Processing

How Efficient is Your Serial and Lot Number Data Entry?

The Serial Lot Copy&Paste Manager accelerates serial and lot number entry for organizations that receive a list of serial or lot numbers to input into the Purchase Order Processing, Sales Order Processing, Inventory Control, Returns Management Authorization and Manufacturing modules in Microsoft Dynamics GP. Using this product, you will improve the accuracy of your serial and lot number data while increasing employee productivity within the warehouse. If your business is spending too much time with serial and lot number entries, the Serial Lot Copy&Paste Manager will eliminate this very common bottleneck.

Flexible & Convenient

Designed for maximum flexibility and convenience, the Serial Lot Copy&Paste Manager streamlines data entry procedures by copying and pasting multiple serial or lot numbers from a flat file (.xls, .txt, etc.) into Microsoft Dynamics GP. The user interface is extremely simple and while new serial or lot numbers can be added anytime, the Serial Lot Copy&Paste Manager can also generate temporary serial or lot numbers for accelerated transaction entry for companies that do not have access to serial or lot numbers at the time of receiving inventory. Once the actual serial numbers are available and entered, the temporary numbers will be replaced. To ensure accuracy against duplicate entries, each serial or lot number is also validated against both the work and the history tables within Microsoft Dynamics GP.

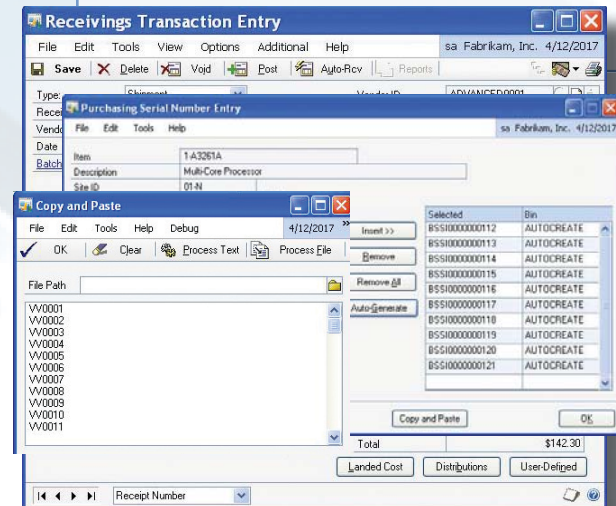

Seamless Integration

Like most of our products, Serial Lot Copy&Paste Manager was developed using Dexterity, the native programming language for Microsoft Dynamics GP. This means you are integrated to Microsoft Dynamics GP in the optimal way, keeping data centralized in one location and one system. The need for data imports or data synchronization is eliminated, user training is minimized, and you can easily create GP reports from data that is in our product. You won't be able to tell if Serial Lot Copy&Paste Manager was a separate product.

Features

- Accelerate Serial and Lot Number Entry
- Works with the SOP, POP, Inventory Control, RMA, and Manufacturing modules
- Auto-import from Flat Files
- Perfect for Distribution Companies
- Increase Accuracy of Inventory Data
- Increase Employee Productivity
- Generate Temporary Serial Numbers for Rapid Entry
- Modified Inquiry Screens for Enhanced Inventory Inquiries
- Improve Cycle Count Accuracy
- Reduce Data Entry and Operational Costs
- Offers Seamless Integration to Microsoft Dynamics GP

Simplify your serial and lot number entry procedures by copying and pasting them directly into various entry points in Microsoft Dynamics GP

Customer Quote - "We saw immediate results upon implementation of the Serial Lot Copy&Paste Manager saving us 75% of the time it had previously taken to input serial number data into Great Plains."

Serial Lot Copy&Paste Manager

Manager Series

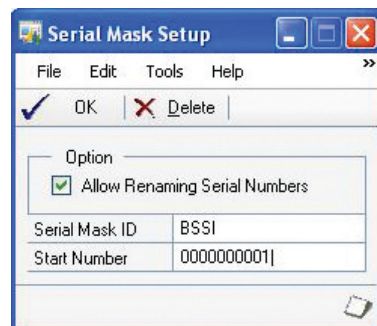

Industry Use

Binary Stream focuses on your success by providing solutions that will increase organizational efficiency and effectiveness. The Serial Lot Copy&Paste Manager is primarily used by distribution and manufacturing companies within the electronics industry but can apply to many other types of businesses. Contact Binary Stream today to learn how you can save time and money around your inventory processes.

Empower your decision-making with easy access to inventory data. You can search your inventory by copying and pasting a list of serial and lot numbers in the standard Serial Lot Inquiry window.

Enhance your ability to process inventory transactions such as sales, receiving, and transfers before you enter serial and lot numbers by using temporary serial and lot numbers and replacing them later with the actual ones.

Benefits

- Maximize Employee Productivity
- Minimize Inventory Wastage
- Gain Better Insight Into Inventory Data
- Increase Inventory Transaction Processing Efficiency
- Reduce Data Entry Errors
- Maximize Inventory Turnover

Support & Customizations

At Binary Stream, customer satisfaction and support is our top priority. We offer flexible support plans to ensure that you can receive the support when you need it. If you would like to customize this product to meet your specific business requirements, we would be more than happy to provide you that service. We also provide 100% knowledge transfer to partners and clients. Over 90% of inquiries are resolved through proper training.

Product Integrations

Vendor Contract Pricing & Rebates

Do you have contracts with your vendors and want to streamline rebates processing? If so, you should consider using our Vendor Contract Pricing & Rebates product to streamline your entire sales and rebate claim processes.
