# Professional Services

for Microsoft Dynamics GP

## Advanced Revenue & Expense Deferrals

### STREAMLINE YOUR DEFERRALS

Binary Stream's Advanced Revenue & Expense Deferrals offers organizations in-depth control and flexibility in managing deferrals for both revenues and expenses. Best suited for service based organizations who desire to delay their revenue or expense recognition throughout the life of a project or contract, the Advanced Revenue & Expense Deferrals software allows its users to defer revenues, expenses, and related credit memos on a line item basis within Microsoft Dynamics GP's SOP and POP transactions. This new functionality allows organizations a great deal of flexibility in terms of creating and altering complex deferral schedules within Microsoft Dynamics GP.

## Advanced Recurring Contract Billing

### STREAMLINE REGULAR BILLING PERIODS

Is your business having trouble scheduling regular billing periods in Microsoft Dynamics GP? Binary Stream's Advanced Recurring Contract Billing manages and schedules regular billing periods in Microsoft Dynamics GP based on recurring fixed-fees or metered fees. Providing support for comprehensive billing schedules with discount options, prorating features and more, the Advanced Recurring Contract Billing can improve your payment collection turnover by ensuring all of your billings are completed as scheduled. Offering you flexibility in the billing units of measure and efficiencies in the use of batch processing for invoice emails, this product can dramatically reduce billing hours and invoice errors.

## eMailer Manager

SAVE TIME SENDING DOCUMENTS TO CLIENTS, VENDORS & EMPLOYEES eMailer Manager is the leading document delivery solution that is embedded within Microsoft Dynamics GP. You can batch process and mass email, fax, or EDI all SOP documents (invoices, statements, orders, quotes, returns), EFT AP remittance reports, employee earnings statements, and purchase orders via Outlook using Adobe PDF or Nova PDF. Additional features such as automated attachments can help you get the right documents to the right person in an efficient manner. If you're looking for the most effective electronic document delivery solution exclusively for Microsoft Dynamics GP, eMailer Manager is the right choice.
